Issue : (flawed user experience)
User stays on the same page after Logout or Registration. (Main container does not refresh)

Ex: Profile page still displayed after user logged out.

Steps to Reproduce:
1. Logged in to Buggy Cars
2. Go to Profile Page
3. Log out

Expected Results:
User should be navigated to Main page or move out from Profile

Actual Results:
User stays on Profile Page. User can try to update the profile info but **unknown error** displays. Not the best experience
